About this range

Ornaments and table decor are what finish a Ramadan setting once the display itself is decided: standing ornaments, lettering pieces and table centrepieces. Best-selling lines are 650073 and 650079. This is the earliest season in the range: May through September. Buyers pick the decorations first because they set the look of the whole display, and the tableware and packaging follow once that look is fixed. Price is what this category is argued about, and it is the category where we are most competitive — high-volume, lightweight paper and card items, flat-packed so that a carton holds more than the buyer expects. If you have a target price and a quantity, send both and we will tell you what is achievable at it.
